

Fitter's Mate – Load & Go (FMA100)

The Fitter's Mate & Attachments are exclusively produced for Products@Home Ltd,
RG19 3RG

Designed and invented in the UK

Thank you for purchasing this product: Fitter's Mate – Load & Go

We understand that as a professional there is not always the opportunity to have help with you on site. This is the purpose of the Fitter's Mate Kitchen Cabinet truck and the Load & Go attachment; they have a unique design to ensure that it is exactly what you need.

The Load & Go used on top of a Fitter's Mate allows you to move the following products on your own; Fridge freezers, Fridges, Washing Machines, Dishwashers, Ovens, Cabinets without legs, large boxed items. **Please take care when using a Load & Go to lift and move heavy objects.**

Should you wish to speak to us regarding your Fitter's Mate or Load & Go, please don't hesitate to contact our customer service team via admin@fittersmate.com

GENERAL SAFETY INSTRUCTIONS

It is important that you read and understand this instruction manual.

The operator is responsible for following the instructions in this manual.

Please retain these instructions for future reference.

1. Keep work area clean and well lit. Cluttered or dark areas invite accidents.
2. Keep children and bystanders away while using the product. Distractions can cause you to lose control.
3. Only perform work described in these instructions for use. Any other use is incorrect. The manufacturer will not assume responsibility for damage resulting from such use.
4. Stay alert, watch what you are doing and use common sense when using the product. Do not use this product while you are tired or under the influence of drugs, alcohol or medication.
5. Use appropriate personal safety equipment.
6. Do not overreach. Keep proper footing and balance at all times. This enables better control of the product in unexpected situations.
7. Dress properly. Do not wear loose clothing or jewelry. Keep your hair and clothing away from moving parts. Loose clothes, jewelry or long hair can be caught in moving parts.

ASSEMBLY INSTRUCTIONS

No assembly needed, the Load & Go easily slots over the Fitter's Mate

INSTRUCTION FOR USE

- Load & Go easily slots over the Fitter's Mate
- Best practice is to have the wheels on the Fitter's Mate in the front hole positions (closest to the 2 support brackets) when using your Load & Go, this will give you the optimum lifting angle
- Product has rubber grips at the end of the L shaped bottom to stop things slipping
- Two full height silicon strips on each side on the back plate and one silicon strip on the front of the toe plate to assist in grip/nonslip and to protect the goods being moved
- Make sure Load & Go is secure on your Fitter's Mate, then wheel your Fitter's Mate and Load & Go under the object you are moving
- When firmly underneath the object and in position, tilt back the object towards you and use one of your feet to put pressure on the Fitter's Mate to ensure it doesn't fall back and help balance the shift in weight
- Holding the object, you can then move it into position using the Fitter's Mate and Load & Go
- **Please take care when using a Load & Go to lift and move heavy objects.**
